

## Coaching self-assessment

Wise leaders are acutely aware of their leadership and how they present at all times. An initial step to creating an awareness of your leadership and how others may perceive you is to assess yourself. Prior to the Wise leadership forum, shade on a scale of 1-10 from the centre of the circumplex to your assessed number on the strength of how you connect, the strength of your work relationships and your passion for the work you do.

Areas that score low are areas that need my attention.

Areas needing improvement: \_\_\_\_\_

Please bring your completed self assessment to the Wise Leaders forum to workshop further
